CAREER OBJECTIVE

I'm a software engineer with one year of web development experience, specializing in back-end programming and database design. I am looking for an engaging environment where I can leverage my expertise in design, development, and maintenance to tailor solutions to meet unique user requirements. I strive to constantly learn and stay up to date with the latest technologies and best practices, with the goal of becoming a better software engineer. Over the next two years, I aim to develop into a senior software engineer in the field of backend development.

ACADEMIC BACKGROUND

Posts and Telecommunications Institute of Technology   September 2019 - Now

Major: Information Security

- Team worker on a lot of projects for 4 years with skills such as presentation, software designing, requirement analysis, reporting
- Courses: OOP in Java, Data Structures, Algorithms, Database, Operating System, Web Programming, Web and Database Security, Penetration Testing...
- Participate in scientific research on the topic of hiding information via HTML files
- GPA: 3.0/4.0

SKILLS

Frameworks:	Spring Boot, ExpressJS, Django, Angular, ReactJS, Flutter
Programming languages:	Java, Javascript, Python, Dart, C#, C++
Other languages:	HTML, CSS
Databases:	MSSQL, MySQL, MongoDB, Oracle
Additional skills:	Git, SVN, Docker, Power BI

WORK EXPERIENCE

Bright Champ Vietnam   May 2023 - Dec 2023
Programming Teacher
- Teaches programming languages such as Java, Python, HTML and CSS
- Teaches data structures, algorithms, and database
- Develop and build comprehensive lesson plans on Java, data structures and algorithms, and database design

Schenker Vietnam Co.Ltd   Oct 2022 - Apr 2023
Software Engineer
- Designed and developed frontend and backend features for the company's device management project
- Improved features in the job management website
- Worked on Spring Boot project (rest API service to Warehouse Management System)
- Worked with the dev team in countries like Singapore, Malaysia, China...
- Participated in training with the Singapore and China dev team

Schenker Vietnam Co.Ltd   Jul 2022 - Sep 2022
Software Engineer Intern
- Worked on an intern project using ASP.NET(importing a lot of data in a short time)
- Developed and optimized reports for the web application using SQL, BIRT, and JS
- Developed dashboard, and report for the web application using SQL and Power BI

CERTIFICATION

Web Development Bootcamp of Udemy

Flutter & Dart of Udemy

Angular & Django Full Stack of Udemy

PROJECTS

Watch Store
Team size: 3 members

- Language: Java
- Github: https://github.com/samytythb/Watch-Store-Java.git
- Responsibilities: - Designed, and developed a database
  - Designed, developed, and implemented the project both front and back end
  - Implemented query Insert/Delete/Find/Sort by attribute from users
  - Implements future lets admin change personal information, management,....

Video App
Team size : 1 member

- Demo : https://app-video.onrender.com
- Language: Javascript
- Github: https://github.com/samytythb/App-Video.git
- Responsibilities: - Designed a database for storing video information
  - Designed, developed, and implemented the project both front and back end
  - Implemented query Insert/Delete/Update/Soft Delete by attribute from users

Keeper App
Team size : 1 member

- Demo : https://keeper-app-gv8d.onrender.com
- Language: Javascript, HTML, CSS
- Github: https://github.com/samytythb/Keeper-App.git
- Responsibilities: - Developed and implemented to add, and delete notes from users
  - Data has been saved in Local Storage
  - Use reactjs framework to implement

Movie App
Team size : 1 member

- Language: Python, Javascript, HTML, CSS
- Github: https://github.com/samytythb/MovieApp
- Responsibilities: - Use a CNN-trained model to liveness-detection
  - Designed, developed, and implemented the project both front and back end
  - Implemented query Insert/Delete/Update/ Delete

PASTIMES AND ACTIVITIES

- I'm keen on reading books, IT blogs, play sports in my free time. My favorite books are Clean Code, The clean coder, and related books on software development, systems
- In my free time, I also work on some pet projects. They can be found on my profile: https://samytythb.github.io/My-Profolio/ and my GitHub profile: https://github.com/samytythb
